

## INFORMATION SHEET

### Music Basics for Non-Musician Primary Teachers

#### Cost

**\$350 per person**  
(Contact us for discounted rates)

TBA

#### Start Date

TBA

#### Duration

6 hours

### Course Overview

This one-day course is designed for primary school teachers with little to no prior music knowledge. It aims to build confidence and provide foundational music skills to help teachers integrate simple, effective music activities in their arts curriculum. The workshop focuses on practical, easy-to-apply techniques, ensuring that teachers leave with tools and strategies to engage students through music.

### Delivery

#### Morning session (3 hours)

- Introduction to music fundamentals
- Basic music theory made simple
- Singing and vocal warm ups
- Simple songs

#### Afternoon session (3 hours)

- Music Activities
- Games and exercises
- Cross curricula connections
- Group activity – design lesson or activity

### Key Benefits:

- Everything explained in a fun, practical way
- No formal music training needed
- Create activities for your classroom
- Integrate into other areas of curriculum
- Develop confidence
- Accessible, hands-on designed for non-musicians
- Practical tools and resources
- Support from experienced music educators

**ENROL NOW!**

### Learning outcomes:

At the end of the course learners will be able to:

- Show knowledge of basic music concepts
- Use practical tools for leading classroom music activities
- Integrate music into other areas of curriculum to enhance engagement and creativity
- Develop confidence in singing and leading musical games

### Course Components:

#### Introduction to music fundamentals

- Key concepts: beat, rhythm, melody, dynamics
- Simple exercises to develop rhythm and timing

#### Basic music theory made simple

- Notes, scales and chords
- Patterns in music
- Singing warm ups and breathing techniques
- Simple songs

#### Music Activities

- Classroom friendly music activities using everyday items
- Games and exercises to teach pitch rhythm, and teamwork

#### Cross-curricula connections

- Collaborative ideas (maths, literacy, visual arts)
